Experience the Power of the Master Mind

During the course of this dynamic, 10 week master mind study group, you will learn how to apply to your life the foundational principles of Napoleon Hill's classic book.

After being commissioned by one of the richest men in the world, Andrew Carnegie, to write the book, Napoleon Hill spent the better part of twenty years studying the lives of five hundred of the richest, most successful people who ever lived – people like Thomas A. Edison, Charles Schwab, Wilbur Wright, Marie Dressler, F.W. Woolworth, John D. Rockefeller, Alexander Graham Bell, and Henry Ford, to name a few. As a result, Hill came to the conclusion that there were sixteen key principles that lead to success. Think & Grow Rich! This book teaches one how these successful individuals put into practice these invaluable tools to create wealth and prosperity in their lives.

**Facilitator Elvire Smith**

Elvire Smith, originally from Amsterdam, resident of Ahwatukee, has been an entrepreneur for many years, she owned a chocolate manufacturing plant on the Gold Coast of Australia and has been a network marketer for many years, in Arizona as well as in Amsterdam. She has been on the self-development path for 20+ years and now combines her understanding and insights from the spiritual with the business aspects. When she learned the teachings of Bob Proctor (one of the teachers of The Secret) and started to apply them to her business, she found her true passion and started to attract all things necessary to create the business and life she was dreaming of. It also became very clear to her that she had a mission to fulfill – teach as many people as possible in her lifetime about this, especially women and teenagers. She became a LifeSuccess Consultant certified by Bob Proctor and is now teaching his life-changing materials to all who want to move forward and create abundance in their business and as well as their life. She will teach you how to turn your dreams into reality through simple, time-proven, guaranteed methods.

**Guest Speaker: Jim Fassold  
Gray Matters Seminars**

**"Work-Life Balance: It's Not What You Think."**

James A. Fassold is a partner with the Phoenix probate litigation firm of Gray & Fassold, P.C., and President and co-founder of Gray Matters Seminars, a coaching and consulting firm.

Jim received a B.A. degree, summa cum laude, in German and philosophy from the University of Pittsburgh, and an M.A. degree in German literature from the University of Wisconsin. Prior to law school, he taught and did postgraduate research at San Francisco State University and the University of California at Berkeley. He received a J.D. degree, magna cum laude, from Arizona State University College of Law, where he was the Senior Articles Editor of the Arizona State Law Journal.

As he developed his law practice, Jim became increasingly concerned about the imbalance and stress in the lives of busy professionals and other knowledge workers. He set out to develop programs to eliminate that imbalance and reduce that stress. Gray Matters Seminars is the culmination of those efforts. Programs include seminars; professional retreats; organizational and individual consulting; and one-on-one coaching.

Jim has a black belt in taekwondo and is an avid cyclist. He and Alisa manage their lives in North Central Phoenix with their two school-age children.
